## Welcome to Kansas Green Teams!

We are so pleased to launch the new look of the Kansas Green Teams website. Click around! You will find the all the old reliable information from our previous site as well as some new fresh information to check out!

The Green Team program was created as a way for you to make a difference by incorporating environmentally responsible practices into your daily routine at work and at school. By joining our effort, you can help Kansas lead by example in energy conservation, pollution prevention, and resource preservation.

### Current Events

#### International Compost Awareness Week 2012

The U.S. Composting Council Board of Directors is pleased to announce a call for entries for its 2012 ICAW Poster Contest. The contest will run from September 15 until November 30, 2011 and is open to anyone who wants to help celebrate...

### Calling all Green Teams!

Do you have a Green Team at your business? Would you like ideas and assistance to start one? WasteCap Nebraska is launching the Nebraska Green Team Network.

Regional roundtables are developing statewide. The meetings are designed to give businesses access to expert speakers, tours of businesses with successful green initiatives, and provide Teams with a forum to share:

- How they started their teams
- Green practices that are working for them
- Challenges they have faced and how they've overcome those obstacles
- Ideas on how to handle the current issues they face.
