

AERO

*AIR EMISSIONS REDUCTION
OPPORTUNITY*

A program aimed at reducing solvent emissions

Seminar logistics

2

- Handouts
 - ▣ agenda
- Restrooms
- Break at 9:15 a.m.
- End at 11:30 a.m.
- SBEAP compliance assistance available after seminar
- Participants eligible for discounted NESHAP 6H virtual paint certification training

Small Business Environmental Assistance Program

- Provides air-focused technical assistance to Kansas small- and medium-sized businesses
 - ▣ Environmental regulatory compliance
 - ▣ Emissions reduction and pollution prevention
 - ▣ Permitting and reporting requirements
- Integrate pollution prevention opportunities in services
- Free, confidential, non-regulatory
- Paid for (in part) by the Kansas Department of Health and Environment

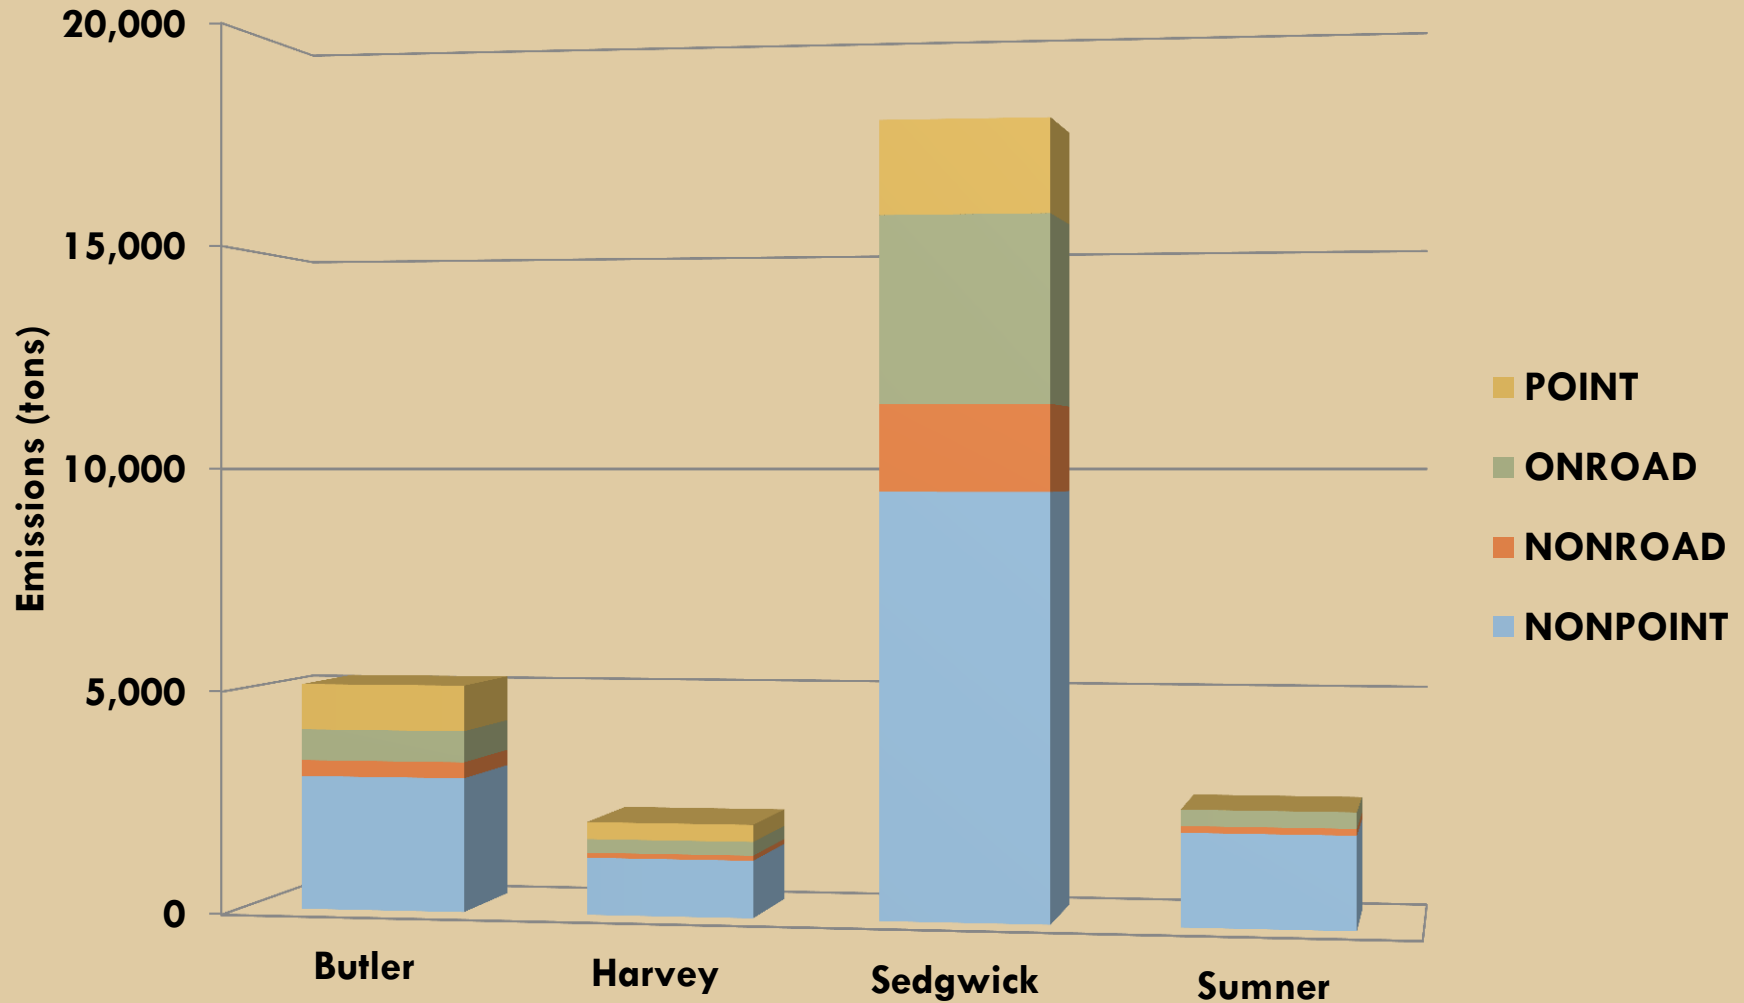

Project vision

Wichita industry leaders will partner with state and local agencies to reduce VOC emissions and “green” the supply chain. This will result in improved air quality and a thriving economy.

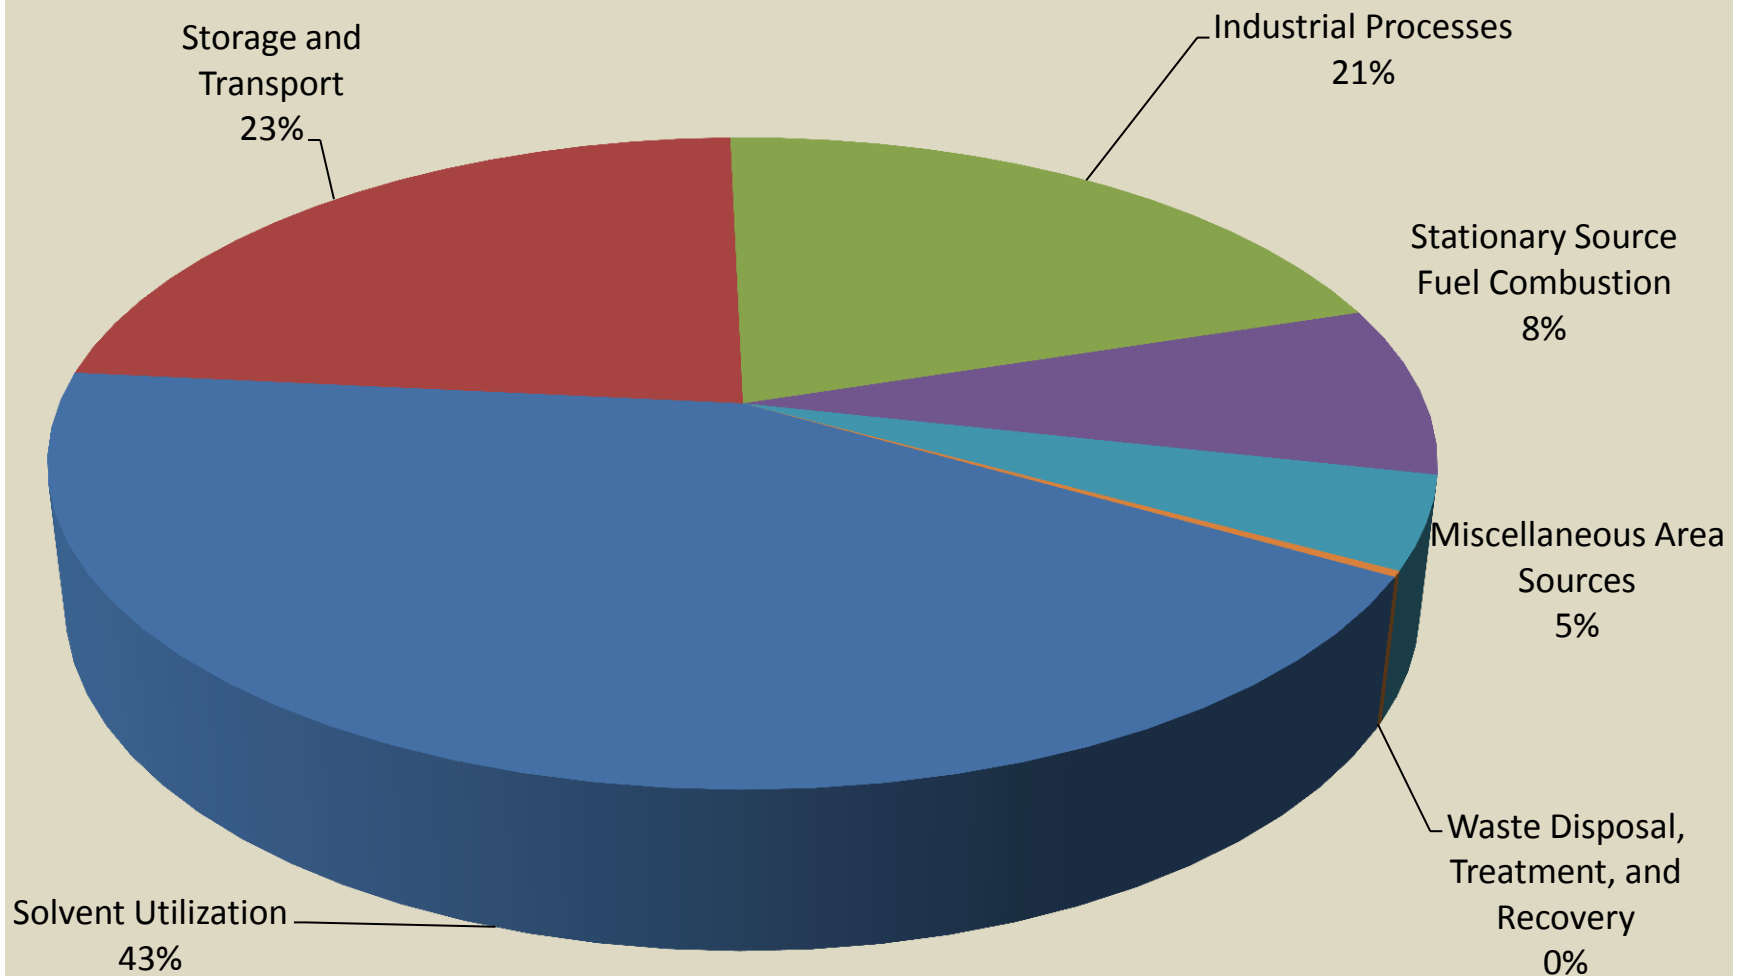

Goal today

Present new ideas for saving money and reducing VOCs. Give you a few “pearls” to take back and consider implementing. Make you aware of our air quality challenges.
