Disclaimer

KDHE makes no assurances of the accuracy or validity of information presented in the Tanks Compliance Viewer. Tanks compliance data is updated on a daily basis. If you see an error in any of your information, contact KDHE. Send an email to kdhe.tankinfo@ks.gov and include your Owner ID, the Facility ID and any information that needs to be changed.

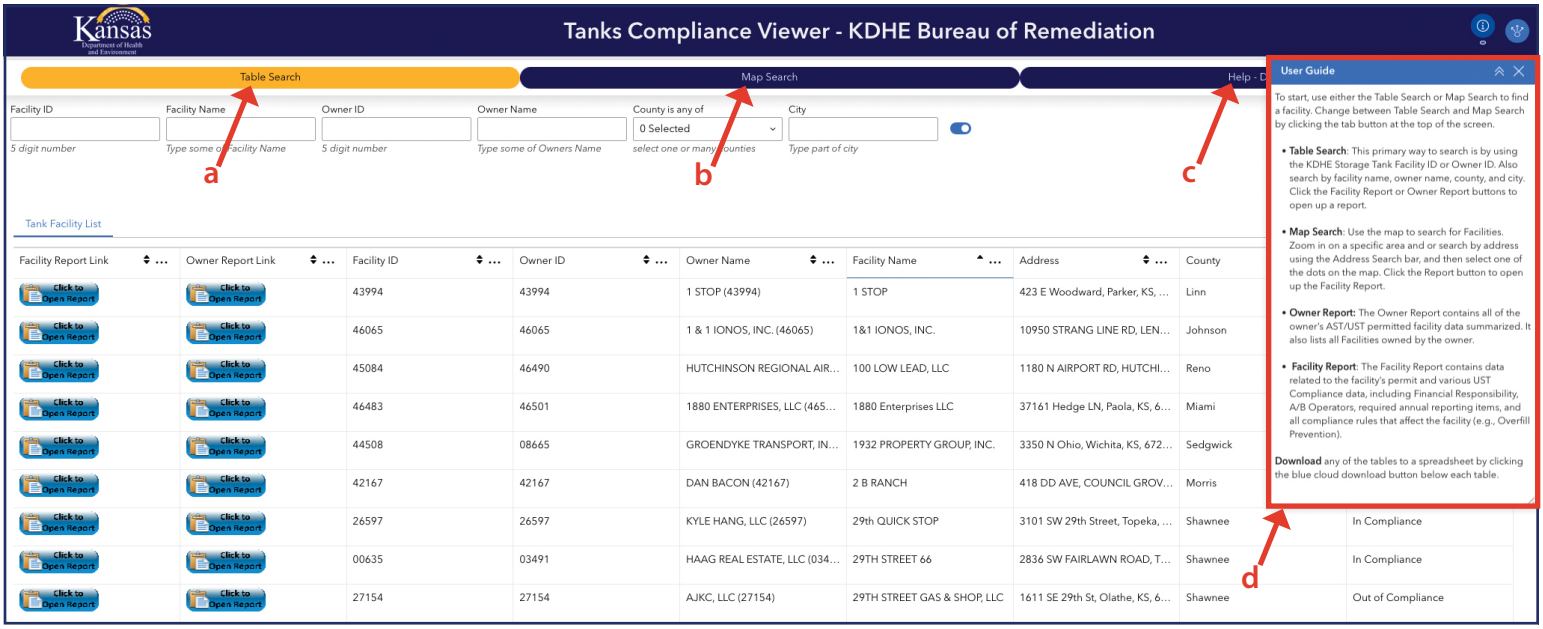

The use of names or addresses derived from public records for commercial purposes is expressly prohibited under Kansas law (K.S.A 45-230). Violations of this law are punishable by a civil penalty. In accessing this website, you acknowledge that you understand this restriction and will not use the presented data for any purpose prohibited by law.

Introduction

The Tanks Compliance Viewer is provided as a public service by the KDHE Bureau of Environmental Remediation to help owners and operators of storage tank facilities quickly check their compliance information. The Compliance Viewer displays all permitted storage tank sites regulated by KDHE.

To access the Tanks Compliance Viewer, visit https://arcg.is/vWb081 or use the link on the KDHE BER Storage Tanks homepage (kdhe.ks.gov/990).

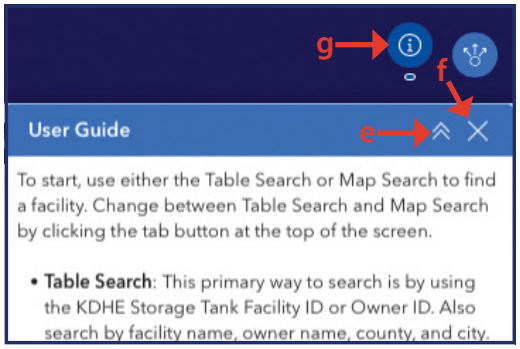

Getting Started

When you open the Compliance Viewer webpage, you will see three tabs at the top.

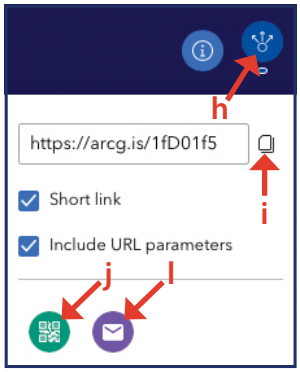

- ***Table Search*** **(a)** – Search by using the KDHE Storage Tank Facility ID or Owner ID. You can also search using other parameters including facility name, owner name, county or city
- ***Map Search*** **(b)** – Search for facilities by using a map to zoom in on a specific area and/or search by facility address
- ***Help – Disclaimer*** **(c)** – Basic instructions for using the viewer

In the upper right corner, the ***User Guide*** **(d)** will be open and expanded when you open the page. Use the expand/collapse button **(e)** to show/hide the guide or click the ***X*** **(f)** to close it. To reopen the User Guide, click the User Guide icon **(g)**.

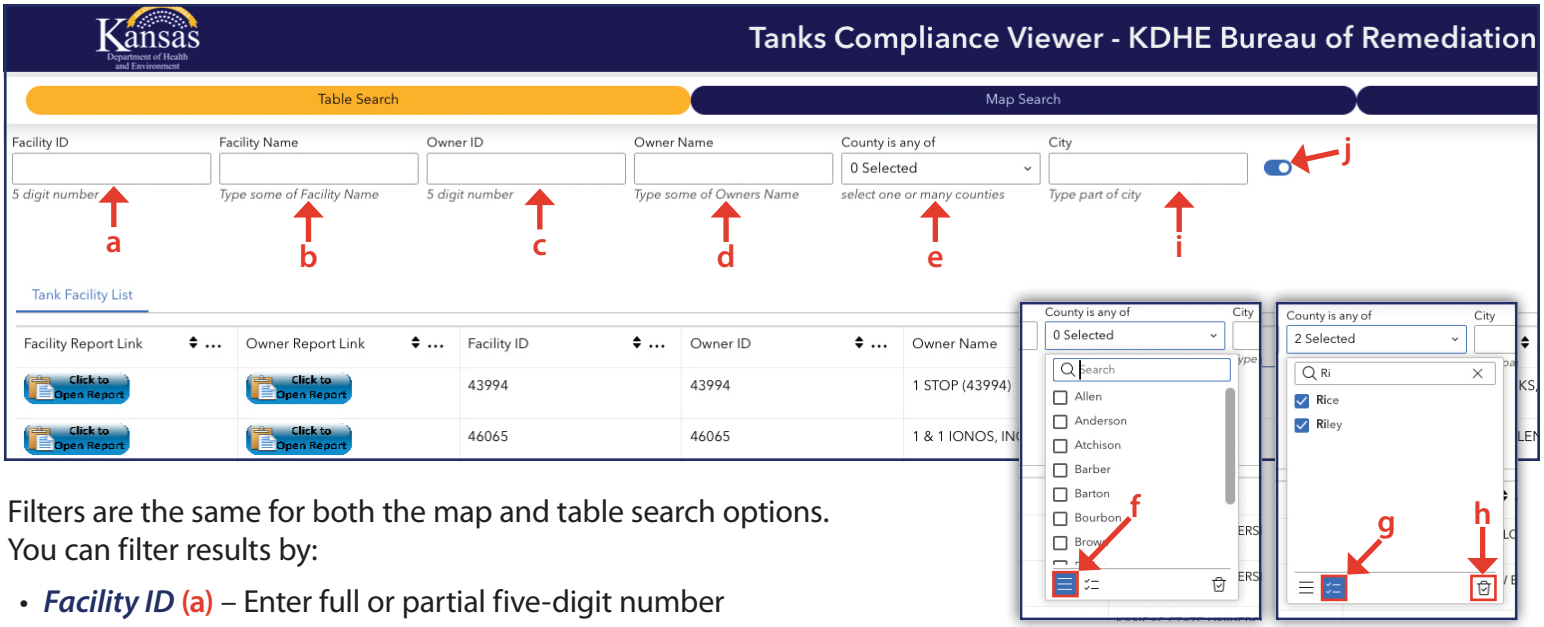

Next to the User Guide icon, there is also a Share icon **(h)**, which allows you to share a link to your specific search. You can:

- Click the copy icon **(i)** to copy the link to your clipboard,
- Click the QR icon **(j)** to generate a QR code and save it to your computer **(k)**, or
- Click the envelope icon **(l)** to share the link via email (this will automatically launch the default email app on your device).

Filters

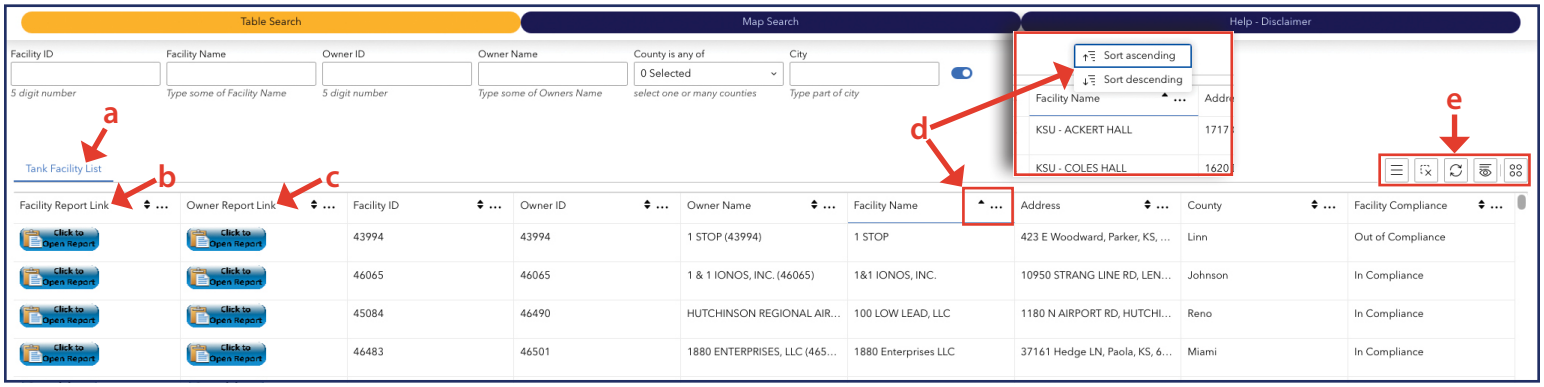

Filters are the same for both the map and table search options.
You can filter results by:

- ***Facility ID*** **(a)** – Enter full or partial five-digit number
- ***Facility Name*** **(b)** – Enter full or partial facility name
- ***Owner ID*** **(c)** – Enter full or partial five-digit number
- ***Owner Name*** **(d)** - Enter full or partial owner or company name
- ***County is any of*** **(e)** – Click to select one or more counties. At the bottom there are buttons to:
  - See all counties **(f)**
  - See only the counties you have selected **(g)**
  - Clear selection(s) **(h)**
- ***City*** **(i)** – Enter full or partial city name

Use the toggle button **(j)** to turn the filters on or off.

Table Search

Below Filters is the ***Tank Facility List*** table **(a)**.

The first two columns in the table are:

- ***Facility Report Link*** **(b)** – The Facility Report contains information related to the facility's permit and UST Compliance data, including Financial Responsibility, A/B Operators, required annual reporting items and all compliance rules that affect the facility.
- ***Owner Report Link*** **(c)** – The Owner Report lists all facilities possessed by the owner and their AST/UST permitted facility data.

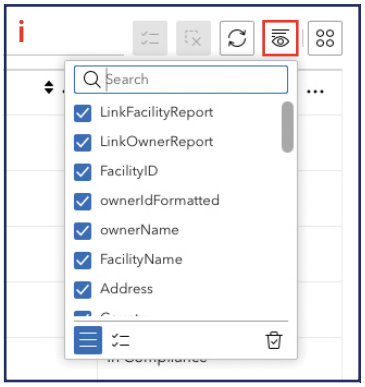

The rest of the columns contain facility data. Use the arrows or three dots **(d)** to the right of each column header to:

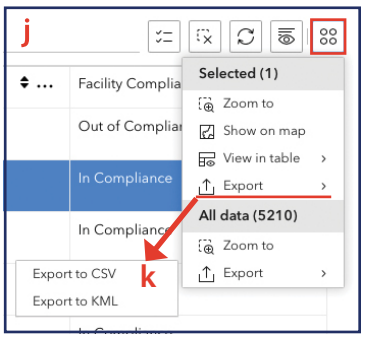

- Sort ***Facility ID*** and ***Owner ID*** numerically
- Sort ***Owner Name***, ***Facility Name*** and ***County*** alphabetically
- Sort ***Address*** alphabetically/numerically
- Sort ***Facility Compliance*** by In/Out of Compliance

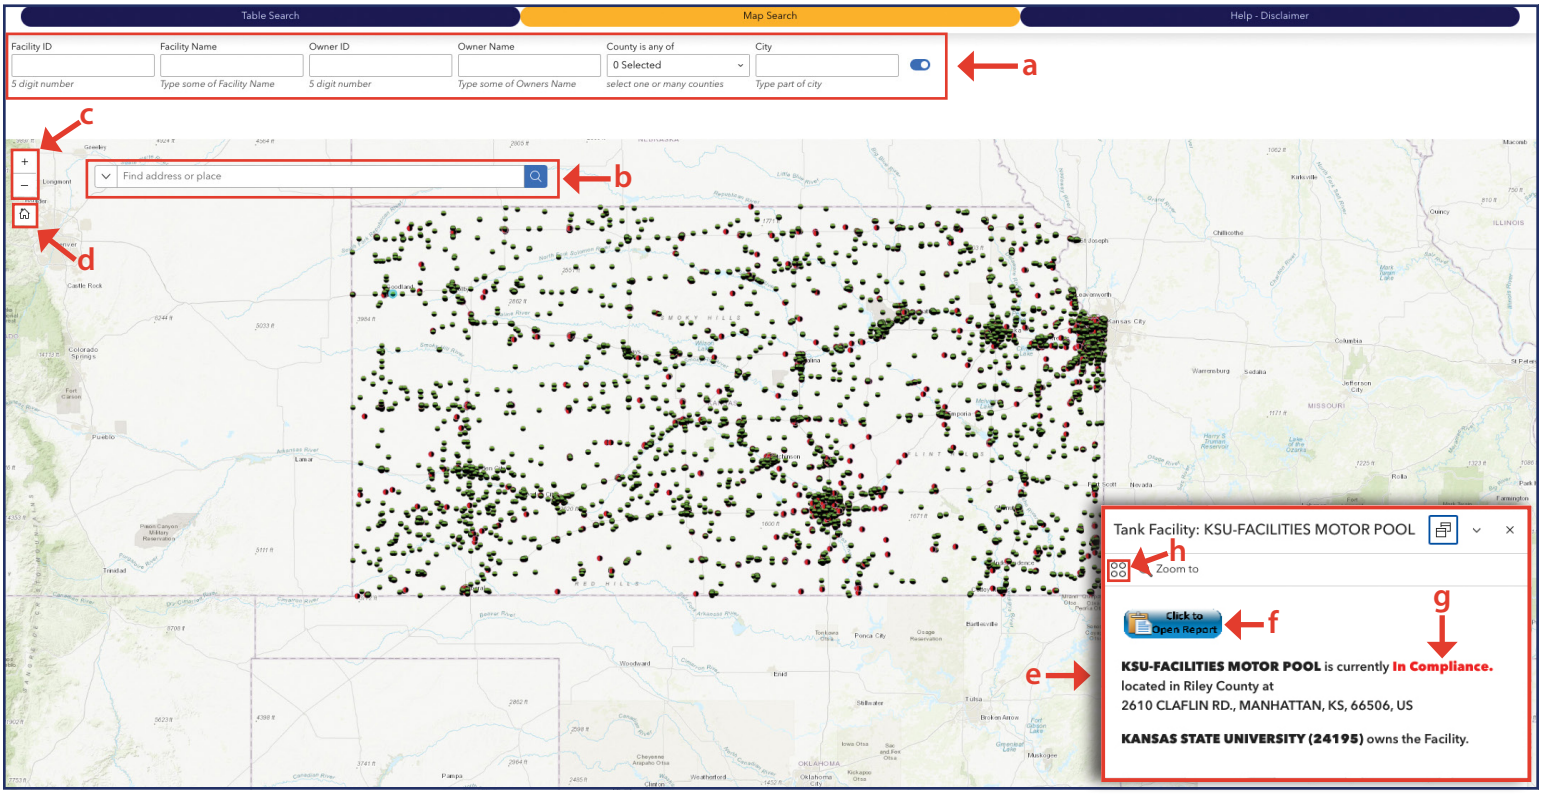

The buttons in the upper right corner of the table **(e)** allow you to:

- ***Show selection*** **(f)** – Show only the row you have selected
- ***Clear selection*** **(g)** – Clear your selection
- ***Refresh*** **(h)** – Clear selection and refresh the table. This will refresh the sorting you have done in the table. It does not clear the filters.
- ***Show/Hide Columns*** **(i)** – Check boxes to add or remove data columns.
- ***Actions*** **(j)** – Show your selection on the map or export selected facility data to a CSV or KML file **(k)**.

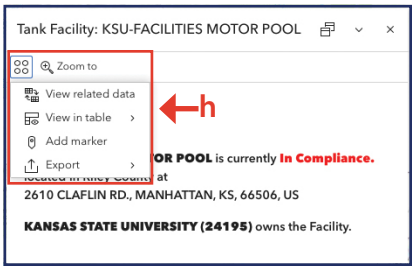

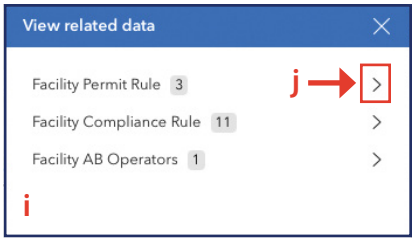

Map Search

In addition to the Filters at the top of the page **(a)**, you can narrow your search by entering a full or partial address into the ***Search Bar*** **(b)**. Use the ***Zoom In/Out*** buttons **(c)** to navigate the map. The ***Home*** button **(d)** will zoom out to the original view.

Once you click on a specific facility, an information box will appear **(e)**. It includes a link to the ***Facility Report*** **(f)** and tells you if the facility is currently in/out of compliance **(g)**. There is also an icon with four circles **(h)** that gives more options, including:

- ***View related data*** – This brings up a pop-up box **(i)** that lists ***Facility Permit Rules***, ***Facility Compliance Rules*** and ***Facility A/B Operators***. Click the arrows to the right **(j)** for more information. This information is also available in the ***Facility Report.***
- ***Add marker*** – adds a marker on the map
- ***View in table*** – filters the information table in Table Search
- ***Export*** – downloads the information in the pop-up box as a CSV or KML file

Reports

There are two different kinds of reports in the Compliance Viewer. The Facility Report contains data related to the facility's permit and various UST Compliance data, including Financial Responsibility, A/B Operators, required annual reporting items and all compliance rules that affect the facility (e.g., Overfill Prevention). The Owner Report contains a summary of all of the owner's AST/UST permitted facility data. It also lists all Facilities possessed by the owner.

When you click the ***Click to Open Report*** button, the report will open in a new tab. If you already have one report open and open another, the Compliance Viewer will automatically close the report tab you had open and replace it with the one you just clicked. To avoid this, right click the blue button and choose ***Open in a new tab*** or ***Open in a new window***.

Facility Report

At the top of the Facility Report, you will see general information, including:

- ***Facility name*** **(a)**
- Map showing facility location **(b)**
- ***Facility ID***, ***Type of Facility***, ***Address***, ***County***, ***KDHE District Office***, ***Coordinates***, ***Owner Name*** and ***Owner ID*** **(c)**.
- Link to the ***Owner Report*** **(d)**
- ***Facility Compliance*** status **(e)**

Below the basic facility information is ***Permits*** **(f)**. This section includes the permit number, status, date the permit was issued, date the permit went into effect and the permit expiration date.

UST Compliance Reports

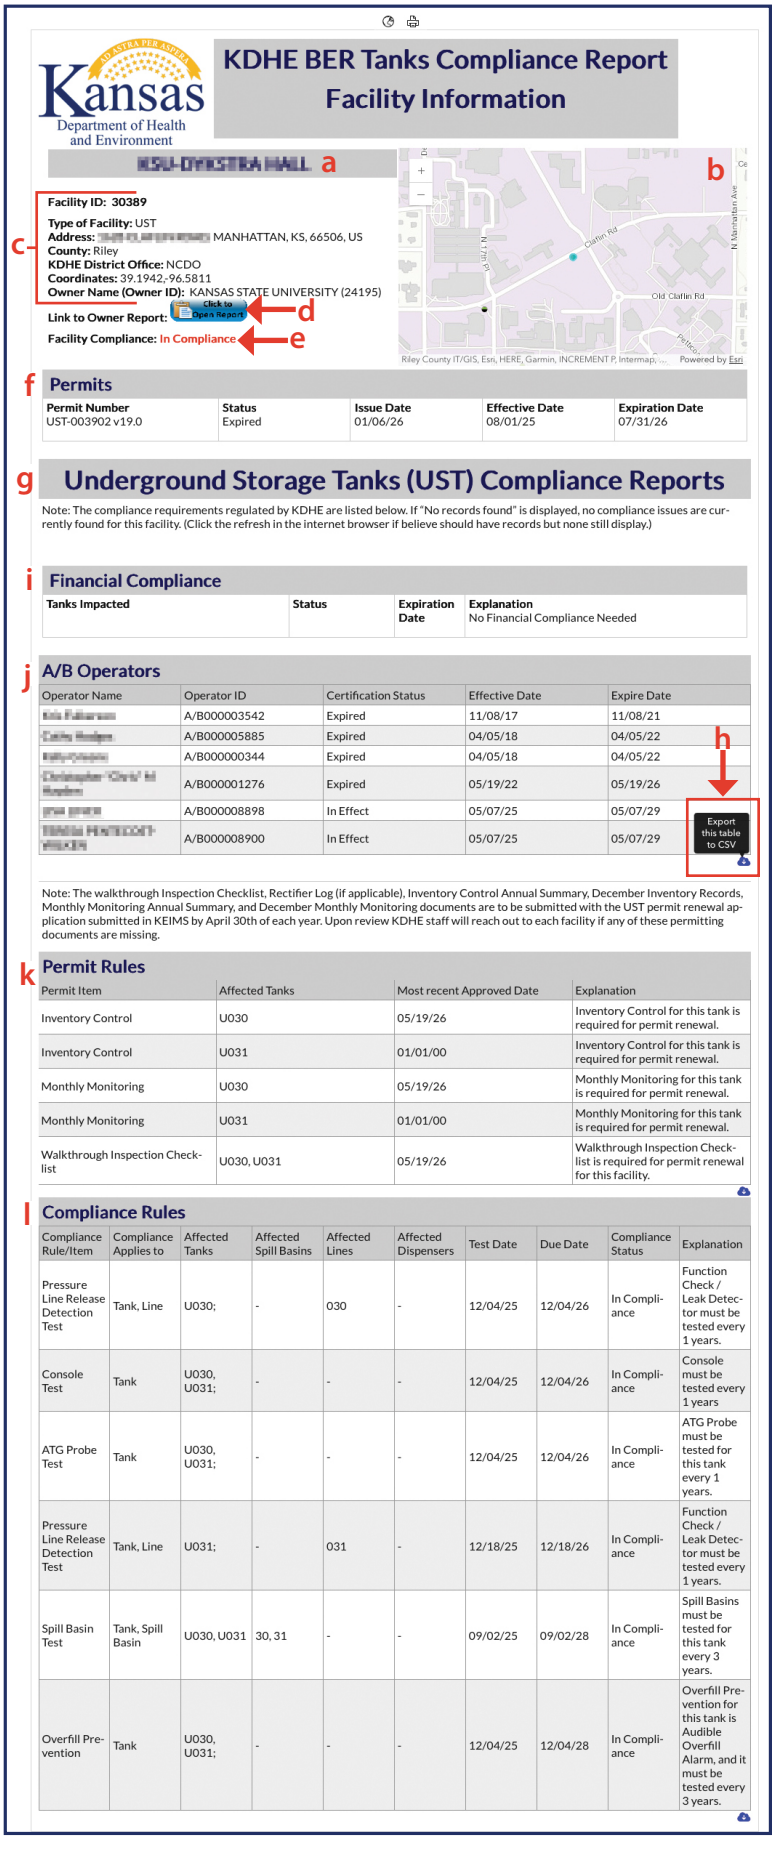

Below the permit information is the ***UST Compliance Reports*** section **(g)**. The tables in this section with a cloud icon at the bottom **(h)** can be downloaded. Just click the icon to export the table as a CSV file.

Financial Compliance **(i)**- UST facilities will see this table which has to do with financial responsibility documentation. This shows which tanks are impacted, the compliance status, the expiration date and any additional explanation.

A/B Operators **(j)** - This table lists all A/B Operators for a facility along with their Operator ID, certification status, date the certificate went into effect and the certificate expiration date.

Permit Rules **(k)** -This table lists the documentation required for annual permit renewal. It also indicates which tanks require each permit item, the most recent approved date and a brief explanation about the required information.

Compliance Rules **(l)** - This table lists all of the testing requirements necessary for a facility to be in compliance. The table also indicates what equipment the testing applies to, the date of testing, date testing is due, current compliance status and a brief explanation of the required testing.

KDHE BER Tanks Compliance Report
Facility Information

a [redacted]

b

c
Facility ID: 30389
Type of Facility: UST
Address: [redacted] MANHATTAN, KS, 66506, US
County: Riley
KDHE District Office: NCDO
Coordinates: 39.1942,-96.5811
Owner Name (Owner ID): KANSAS STATE UNIVERSITY (24195)

Link to Owner Report: Click to Open Report — d
Facility Compliance: In Compliance — e

f **Permits**

Permit Number	Status	Issue Date	Effective Date	Expiration Date
UST-003902 v19.0	Expired	01/06/26	08/01/25	07/31/26

g **Underground Storage Tanks (UST) Compliance Reports**

Note: The compliance requirements regulated by KDHE are listed below. If "No records found" is displayed, no compliance issues are currently found for this facility. (Click the refresh in the internet browser if believe should have records but none still display.)

i **Financial Compliance**

Tanks Impacted	Status	Expiration Date	Explanation
			No Financial Compliance Needed

j **A/B Operators**

Operator Name	Operator ID	Certification Status	Effective Date	Expire Date
[redacted]	A/B000003542	Expired	11/08/17	11/08/21
[redacted]	A/B000005885	Expired	04/05/18	04/05/22
[redacted]	A/B000000344	Expired	04/05/18	04/05/22
[redacted]	A/B000001276	Expired	05/19/22	05/19/26
[redacted]	A/B000008898	In Effect	05/07/25	05/07/29
[redacted]	A/B000008900	In Effect	05/07/25	05/07/29

h — Export this table to CSV

Note: The walkthrough Inspection Checklist, Rectifier Log (if applicable), Inventory Control Annual Summary, December Inventory Records, Monthly Monitoring Annual Summary, and December Monthly Monitoring documents are to be submitted with the UST permit renewal application submitted in KEIMS by April 30th of each year. Upon review KDHE staff will reach out to each facility if any of these permitting documents are missing.

k **Permit Rules**

Permit Item	Affected Tanks	Most recent Approved Date	Explanation
Inventory Control	U030	05/19/26	Inventory Control for this tank is required for permit renewal.
Inventory Control	U031	01/01/00	Inventory Control for this tank is required for permit renewal.
Monthly Monitoring	U030	05/19/26	Monthly Monitoring for this tank is required for permit renewal.
Monthly Monitoring	U031	01/01/00	Monthly Monitoring for this tank is required for permit renewal.
Walkthrough Inspection Checklist	U030, U031	05/19/26	Walkthrough Inspection Checklist is required for permit renewal for this facility.

l **Compliance Rules**

Compliance Rule/Item	Compliance Applies to	Affected Tanks	Affected Spill Basins	Affected Lines	Affected Dispensers	Test Date	Due Date	Compliance Status	Explanation
Pressure Line Release Detection Test	Tank, Line	U030;	-	030	-	12/04/25	12/04/26	In Compliance	Function Check / Leak Detector must be tested every 1 years.
Console Test	Tank	U030, U031;	-	-	-	12/04/25	12/04/26	In Compliance	Console must be tested every 1 years
ATG Probe Test	Tank	U030, U031;	-	-	-	12/04/25	12/04/26	In Compliance	ATG Probe must be tested for this tank every 1 years.
Pressure Line Release Detection Test	Tank, Line	U031;	-	031	-	12/18/25	12/18/26	In Compliance	Function Check / Leak Detector must be tested every 1 years.
Spill Basin Test	Tank, Spill Basin	U030, U031	30, 31	-	-	09/02/25	09/02/28	In Compliance	Spill Basins must be tested for this tank every 3 years.
Overfill Prevention	Tank	U030, U031;	-	-	-	12/04/25	12/04/28	In Compliance	Overfill Prevention for this tank is Audible Overfill Alarm, and it must be tested every 3 years.

Owner Report

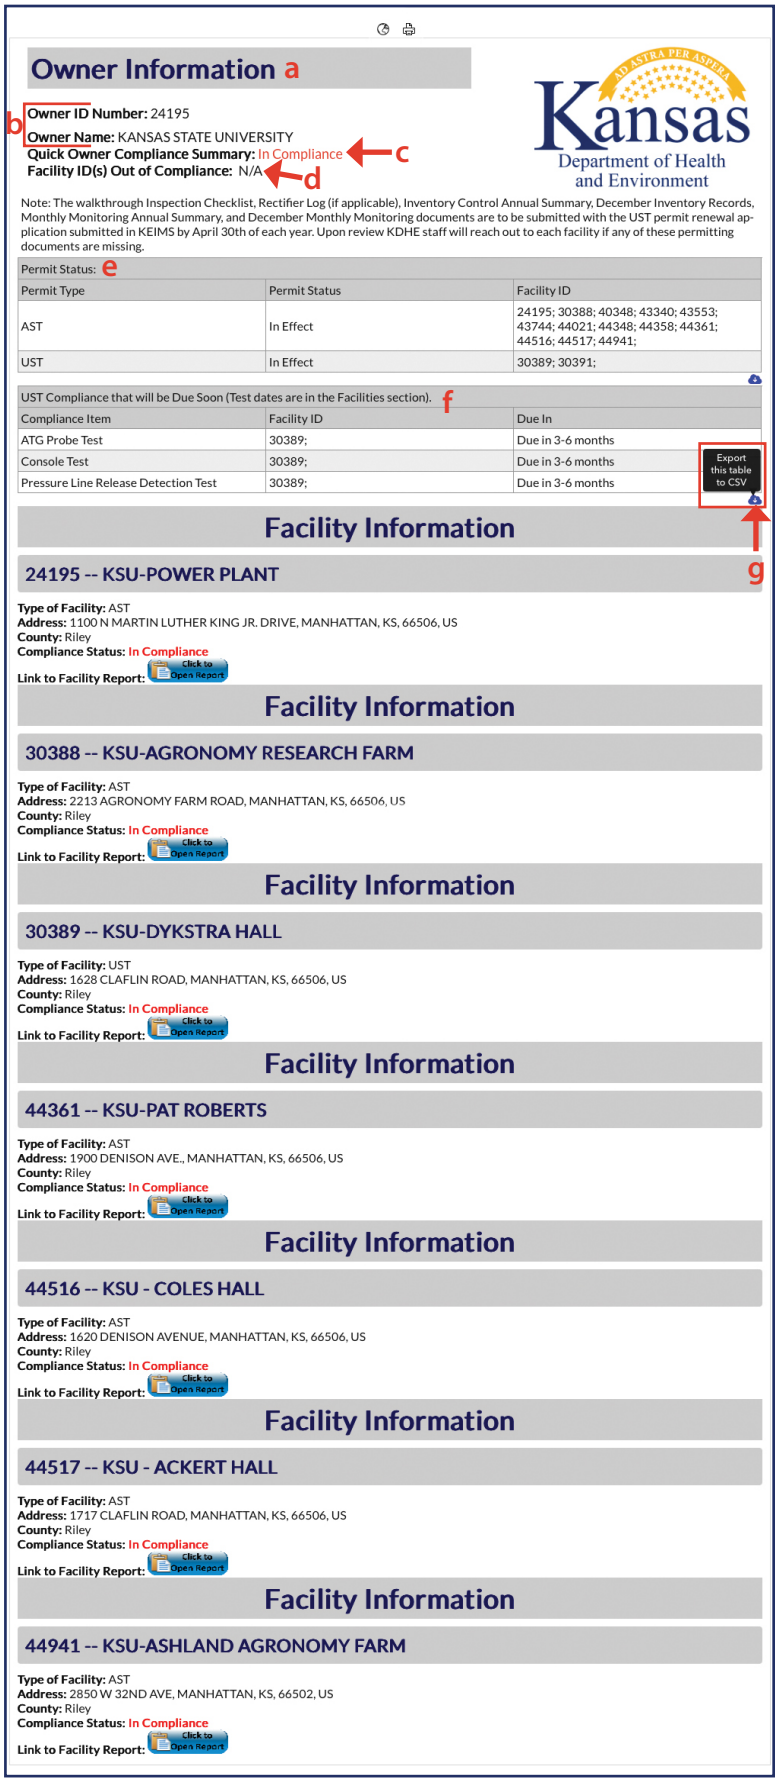

At the top of the Owner Report, you will see ***Owner Information*** (a). This includes the ***Owner ID*** and ***Owner Name*** (b), ***Quick Owner Compliance Summary*** (c), and ***Facility IDs Out of Compliance*** (d).

Below Owner Information is ***Permit Status*** (e). This section lists the permit type, current permit status and the ID numbers of facilities with that permit.

Next is the ***UST Compliance that will be Due Soon*** table (f). It lists each compliance item that is coming due, the ID number of the affected facility and the due date. Specific information for each facility is available in the ***Facility Information*** section below.

Facility Information

Below the general overview of permit and compliance information, owners will find a list of all of their facilities. Each facility listed includes the type of facility (UST or AST), address, county, current compliance status and a link to the Facility Report.

Contact

If you need to contact KDHE regarding USTs, please send an email to kdhe.tankinfo@ks.gov with your Owner ID, Facility ID and your specific questions.

The Small Business Environmental Assistance Program, or SBEAP, is available to help with the Tanks Compliance Viewer. Email sbeap@ksu.edu or call 800-578-8898 for assistance. Site visits and virtual assistance are available. This instructional guide was prepared by SBEAP and reviewed by KDHE.
